Please also provide the following information to the Building Appeals Board:

(NB this information is required in order for the Board to determine whether compliance with the access provision would impose unjustifiable hardship on the applicant)

- (a) Any additional capital operating or other costs, or loss of revenue, that would be directly incurred by, or reasonably likely to result from, compliance with the provision.
- (b) Any reductions in capital, operating or other costs, or increases in revenue, that would be directly achieved by, or reasonably likely to result from, compliance with the provision.
- (c) The extent to which the construction of the building has or will be financed by government funding.
- (d) The extent to which the building:
 - (i) is used for public purposes; and
 - (ii) has a community function.
- (e) The financial position of the applicant.

- (f) Any effect that compliance with the provision is reasonably likely to have on the financial viability of the applicant.
- (g) Any exceptional technical factors (such as the effect of load-bearing elements on the structural integrity of the building) or geographic factors (such as gradient or topography), affecting a person's ability to comply with the provision.
- (h) Financial, staffing, technical, information and other resources reasonably available to the applicant, including any grants, tax concessions, subsidies or other external assistance provided or available.
- (i) Whether the cost of alterations to make any premises accessible is disproportionate to the value of the building, taking into consideration the improved value that would result from the alterations.

- (o) The nature and results of any processes of consultation, including at local, regional, state, national, international, industry or other level, involving, or on behalf of the applicant, a building developer, building manager or the relevant building surveyor and persons with disabilities, about means of achieving compliance with the provision, including in relation to the factors listed in this subsection.

If a substantial issue of unjustifiable hardship is raised having regard to the factors mentioned above, then the Building Appeals Board must also consider the following additional factors:

- (a) the extent to which substantially equal access to public premises is or may be provided otherwise than by compliance with the access provision of the building regulations; and
- (b) any measures undertaken, or to be undertaken, by, on behalf of, or in association with, a person or organisation in order to ensure substantially equal access.

The Board is required to provide for compliance with an access provision of the building regulations to the maximum extent possible not involving unjustifiable hardship.

Please note that many applications to the Board under section 160B of the Act provide insufficient information, which delays the Board's determination of the matter. Please ensure that this application includes all relevant information.
